EXISTLY

ABOUT EXISTLY

Existly is a trusted partner for businesses seeking seamless backend solutions and growth-driven strategies. Our team blends digital marketing expertise, hands-on property management, and comprehensive financial services to simplify operations and deliver measurable results. With a focus on customized solutions and proactive support, we empower clients to optimize their online presence, manage assets effectively, and maintain financial clarity.

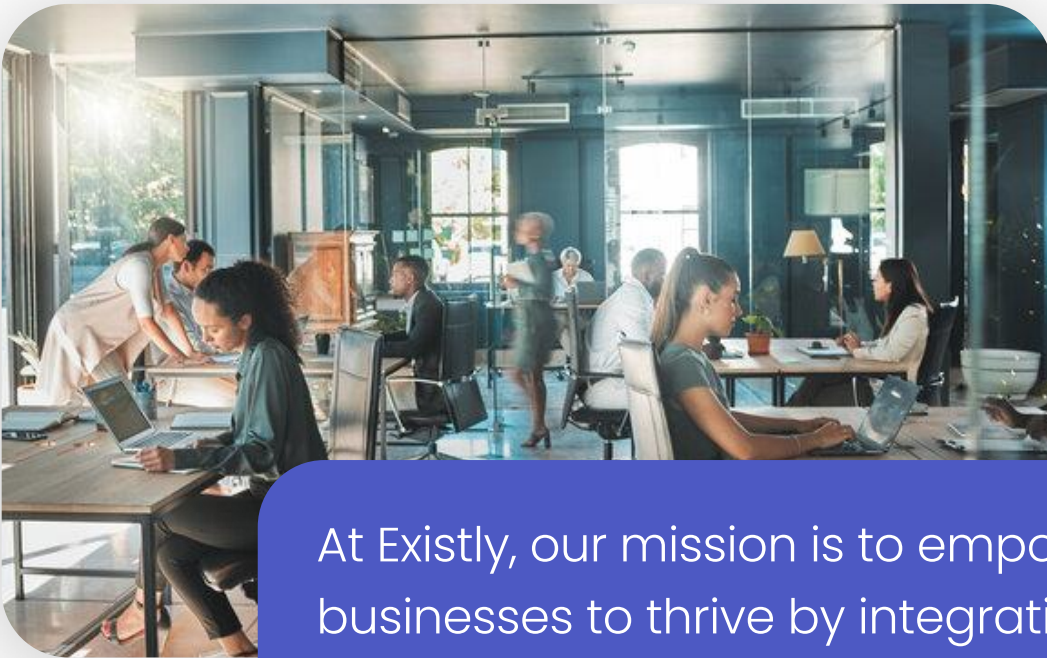

OUR MISSION

- **Streamline:** Integrate essential tools and workflows into a unified platform.
- **Optimize:** Leverage AI-driven strategies and industry best practices to maximize occupancy, engagement, and revenue.
- **Support:** Deliver proactive, 24/7 support through vetted experts to keep operations running smoothly.

EXISTLY'S MISSION

Empowering businesses with unified,
impactful solutions.

At Existly, our mission is to empower businesses to thrive by integrating advanced digital marketing, expert property management, and precise financial services into a cohesive, hands-on partnership. We anticipate challenges before they arise and seize growth opportunities with unwavering support, so you can focus on what matters most: building your vision.

ONLINE EXISTENCE

Existly builds and amplifies your digital footprint, ensuring your brand stands out and attracts qualified leads. We craft engaging content and targeted campaigns to convert visitors into loyal customers.

PROPERTY MANAGEMENT

Our long-term property management services maximize tenant retention and minimize landlord stress by handling all marketing of your properties, listing them on platforms like Zillow and Apartments.com, scheduling and conducting property showings, orchestrating seamless move-ins and move-outs, and ensuring consistent rental income, proactive maintenance, and personalized tenant relations.

CORE SERVICE PILLARS

FINANCIAL SERVICES

We provide clear, actionable financial insights that keep your accounts accurate and your growth trajectory on track.

- Real-Time Accounting & Bookkeeping
- Budget vs. Actual Reporting
- Cash Flow Analysis & Forecasting

VACATIONAL MANAGEMENT

Our Vacation rental management services maximize occupancy and revenue, minimize operational hassles, and ensure memorable guest experiences. We handle everything from listing optimization and dynamic pricing to seamless turnovers and real-time support, so hosts can enjoy passive income with peace of mind.

VACATIONAL RENATAL MANAGEMENT

> LISTING OPTIMIZATION

We kick off by auditing your existing OTA profiles, Airbnb, Vrbo, Booking.com and applying data-backed best practices to elevate visibility and drive more bookings. This comprehensive service blends SEO-rich copy, professional imagery, and dynamic pricing to ensure your listings consistently rank at the top.

- **Headline & Title Crafting:** Create attention grabbing titles (“Sunset Views & In-Suite Spa”) that highlight your property’s most compelling features.
- **Keyword Research & Integration:** Leverage local market data and search trends to weave high value keywords naturally into titles and descriptions.
- **Compelling Description Writing:** Balance factual details (square footage, amenities) with evocative storytelling (neighborhood highlights, experiential perks).
- **Data-Driven Pricing Strategy:** Implement dynamic-pricing rules informed by real-time demand, local events, and competitor rates to maximize both occupancy and revenue.

> AMENITIES ANALYZING

Our Amenities Analyzer goes beyond a simple checklist—it’s a strategic scorecard designed to pinpoint exactly which guest-facing features will move the needle on your reviews and booking rate. By benchmarking against the top local properties, we deliver a clear upgrade roadmap.

- **Comprehensive Audit:** Inventory every amenity, from high-speed Wi-Fi and smart-home integrations to luxury touches like welcome baskets and premium linens.
- **Competitive Benchmarking:** Compare your offering against the top 5 nearby listings to identify strengths and gaps.
- **Amenity Gap Analysis & Prioritization:** Provide a phased, ROI-focused upgrade plan (e.g., add blackout curtains to boost sleep-quality ratings by 15%).

AUTOMATION OF GUEST COMMUNICATION

Never leave a guest waiting. Our 24/7 AI-powered chatbot handles everything from initial inquiries to post-checkout review requests, across your website and all OTA messaging platforms, freeing you from manual back-and-forth and ensuring every guest feels attended to.

- **Instant Inquiry Handling:** AI-driven responses to FAQs, with escalation of complex questions to your team.
- **Automated Reservation Confirmations:** Immediate booking acknowledgments that reduce no-shows and build trust.
- **Check-In/Out Instructions & Reminders:** Timed messages with maps, gate codes, and parking tips sent at the optimal moment.
- **Customizable Templates:** Branded welcome notes, mid-stay check-ins, and review reminders that drive five-star feedback.

TURNO COORDINATION (U.S. CLIENTS)

Seamless turnovers are the backbone of high-performance rentals. Our end-to-end coordination, vendor dispatch, scheduling, and quality inspection, ensures zero downtime between guests and flawless 5-star ready units.

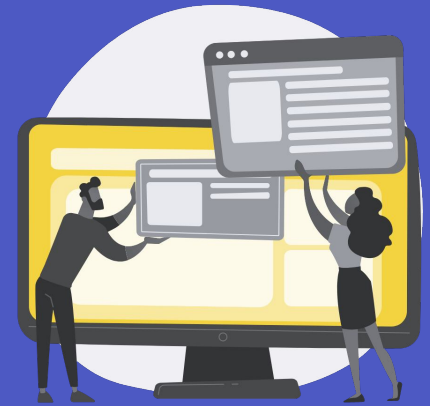

- **Vetted Vendor Network:** Pre-screened, insured cleaners and maintenance pros scheduled automatically after each checkout.
- **Automated Scheduling & Notifications:** Calendar sync across all platforms, instant dispatch of teams, and real-time alerts to everyone involved.
- **Photo-Verified Inspections:** Geotagged, timestamped walkthroughs that immediately flag and resolve any issues.

> DIRECT BOOKING WEBSITE CREATION

Cut out OTA commissions and own the guest relationship with a mobile-first, brand-aligned booking portal. Our commission-free engine integrates with your PMS, captures guest data, and drives direct revenue growth.

- **Planning & Custom Design:** Wireframes and visual mockups that reflect your property's unique story and user-flow mapping to optimize conversions.
- **Development & Integration:** Secure booking engine, calendar/payment gateway hookups, and dynamic-rate configuration tied to your PMS.
- **SEO & Analytics:** On-page optimization (meta tags, schema) plus integrated analytics for continuous A/B testing and funnel improvement.

> ONLINE PRESENCE BUILDOUT

A powerful website is just one pillar. We weave together SEO, social media, and targeted ads into a unified ecosystem that magnifies your brand, drives direct bookings, and keeps your properties top-of-mind.

- **Custom Rental Website & SEO:** Local keyword optimization, backlink strategy, and schema markup to boost organic rankings.
- **Social Media Management:** Instagram reels, stories, and Facebook ad campaigns tailored to past booking behavior and geographic targeting.
- **Email Marketing Funnels:** Personalized offers and automated nurture sequences that turn one time guests into repeat visitors.
- **Performance Reporting:** Monthly dashboards with traffic, engagement, and ROI metrics to guide your ongoing strategy.
